

ENGINEERED FOR THE TIGHT SQUEEZE. MINI-SLIP-JOINT PLIERS NO 6515.

Professionals frequently come up against the problem: working spaces are becoming ever more cramped and hardly leave enough room to work. With its mini-slip-joint pliers 6515, STAHLWILLE now provides the solution. These high-quality crafted pliers are only 125 mm long, making them extremely compact. But with such key features as a box joint, four-way adjustment and an ergonomically designed handle, they offer just the advantages pros are used to from larger STAHLWILLE products.

Mini-slip-joint pliers No 6515

- **Compact.** Ideally suited to working in tight spaces.
- **Ergonomically designed.** The carefully crafted handle shape and the plastic covers ensure firm grip and strain-free handling - even on longer working days.
- **Resilient.** The box joint means the tool will withstand tough use and ensures the durability expected of STAHLWILLE tools.
- **High-grade.** Black lacquered with polished hardened steel jaws.
Made in Germany.
- **Safe.** Integrated anti-pinch mechanism to prevent injury from pinching.
